Sheet: 1/5

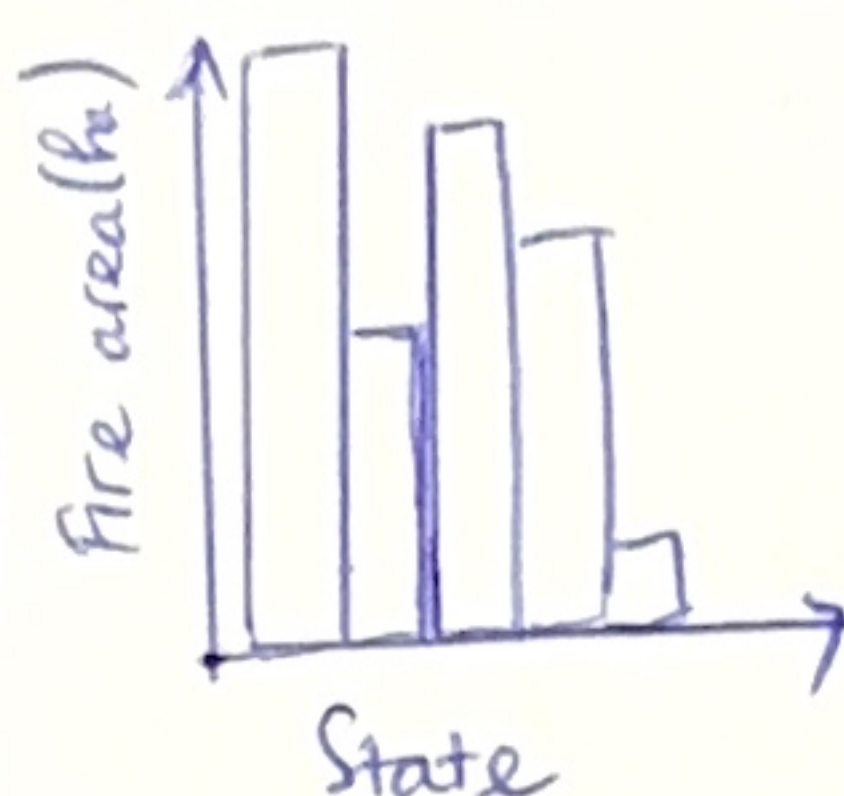

Maps

(a) Fire locations

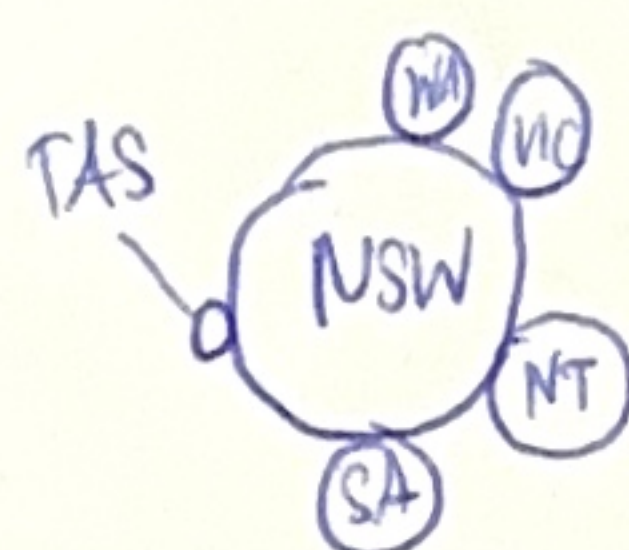

• Fire Area by State

(a) Bar chart

(b) Bubble chart

(b) Choropleth map (fire area by state)

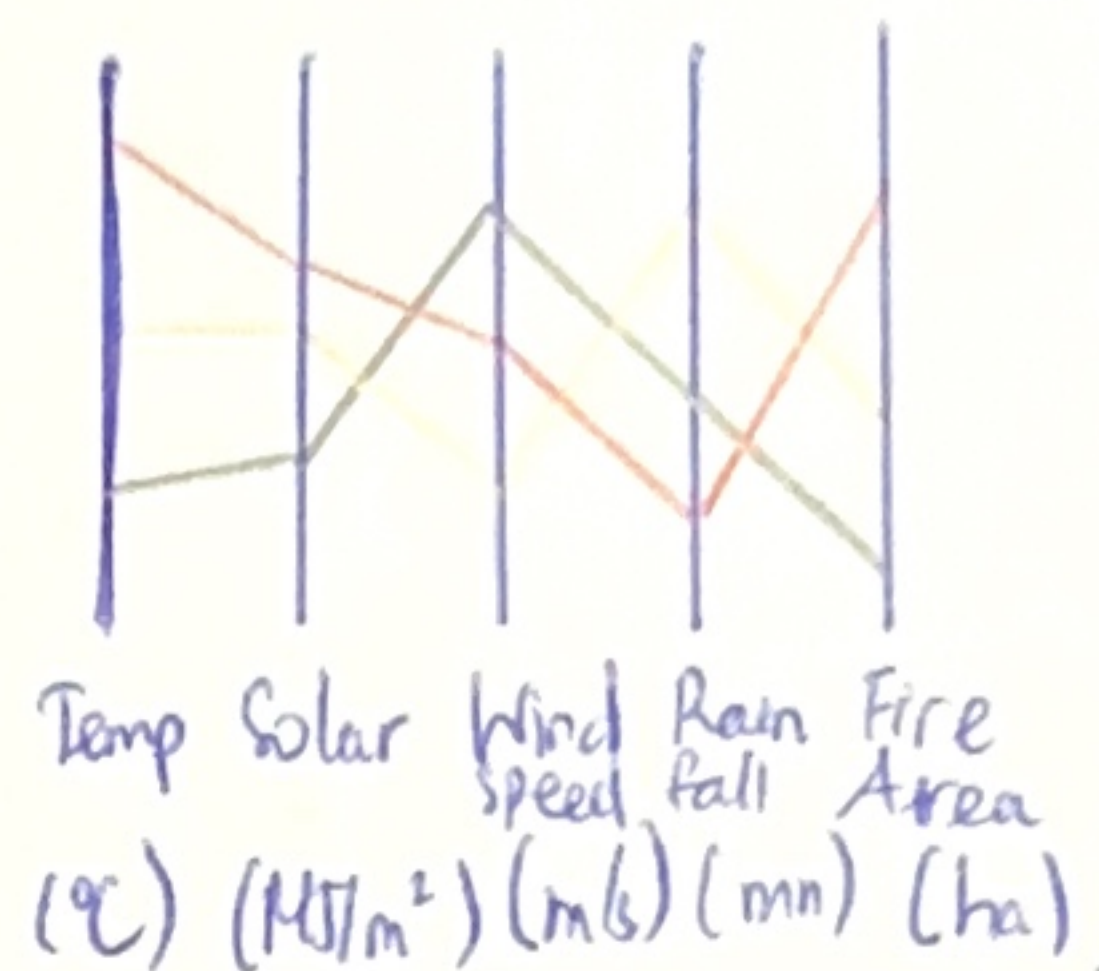

• Climate changes

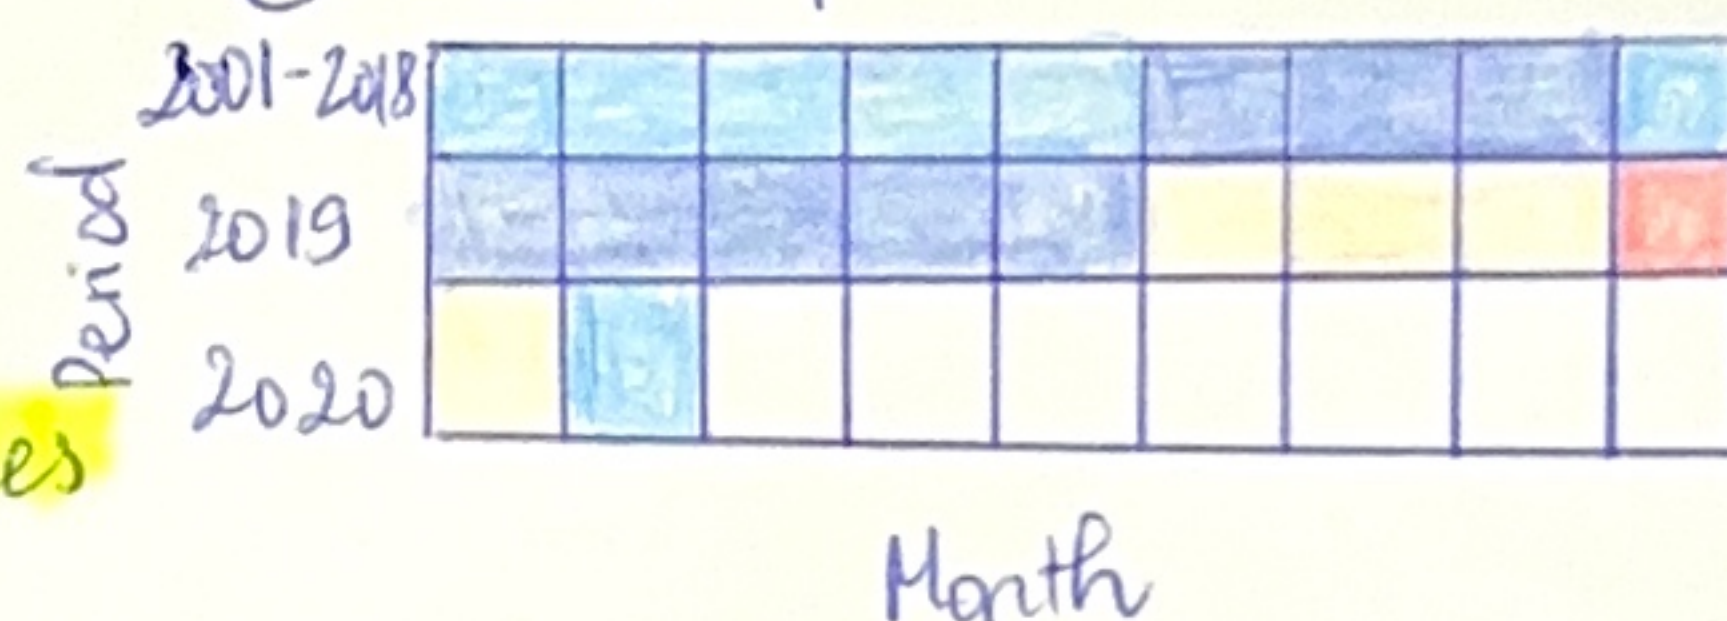

(a) Line chart

(b) Parallel Coordinates Plot

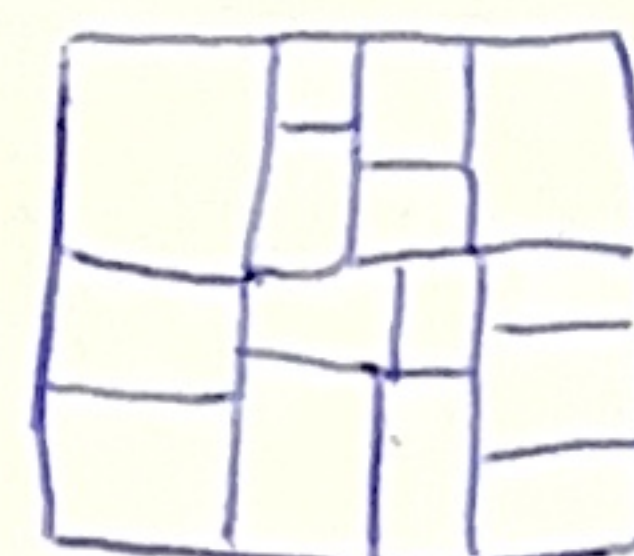

• CO₂ Emission from the megafires.

(a) Heatmap

(b) Treemap

- Size: CO₂ emission
- Each item: A month during each period.

FILTER

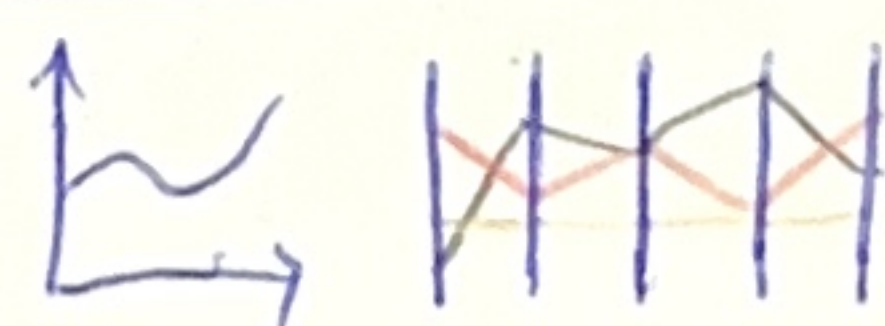

Fire location

- Physical fire location
- better insights.
- Help avoid duplication vs the "Fire Area by State".

CATEGORIZE

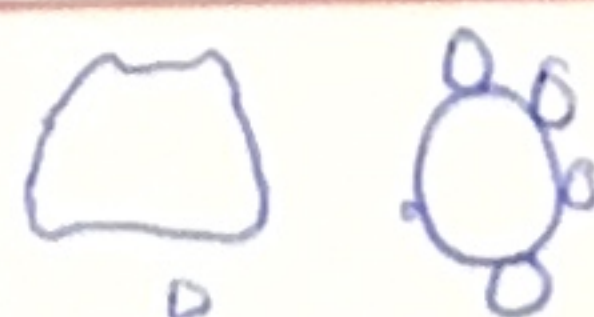

Climate Changes.

Go together → complement each other.

Bar Line chart: historical

Parallel: Combination

Map + Bubble

→ Fire location + area

COMBINE + REFINE

• Fire location

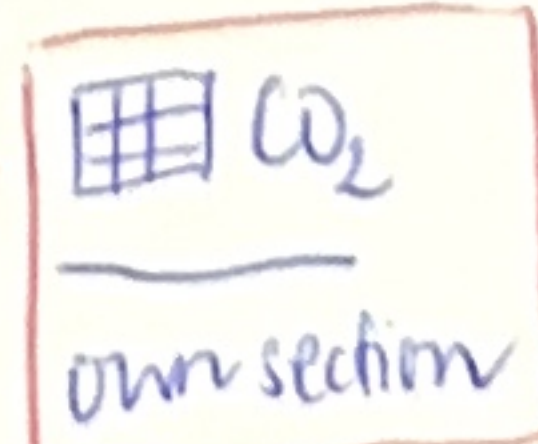

• Climate & changes

• Line: trends

• Parallel coordinates: combine

• CO₂: Heatmap

→ Show outliers clearly

CO₂

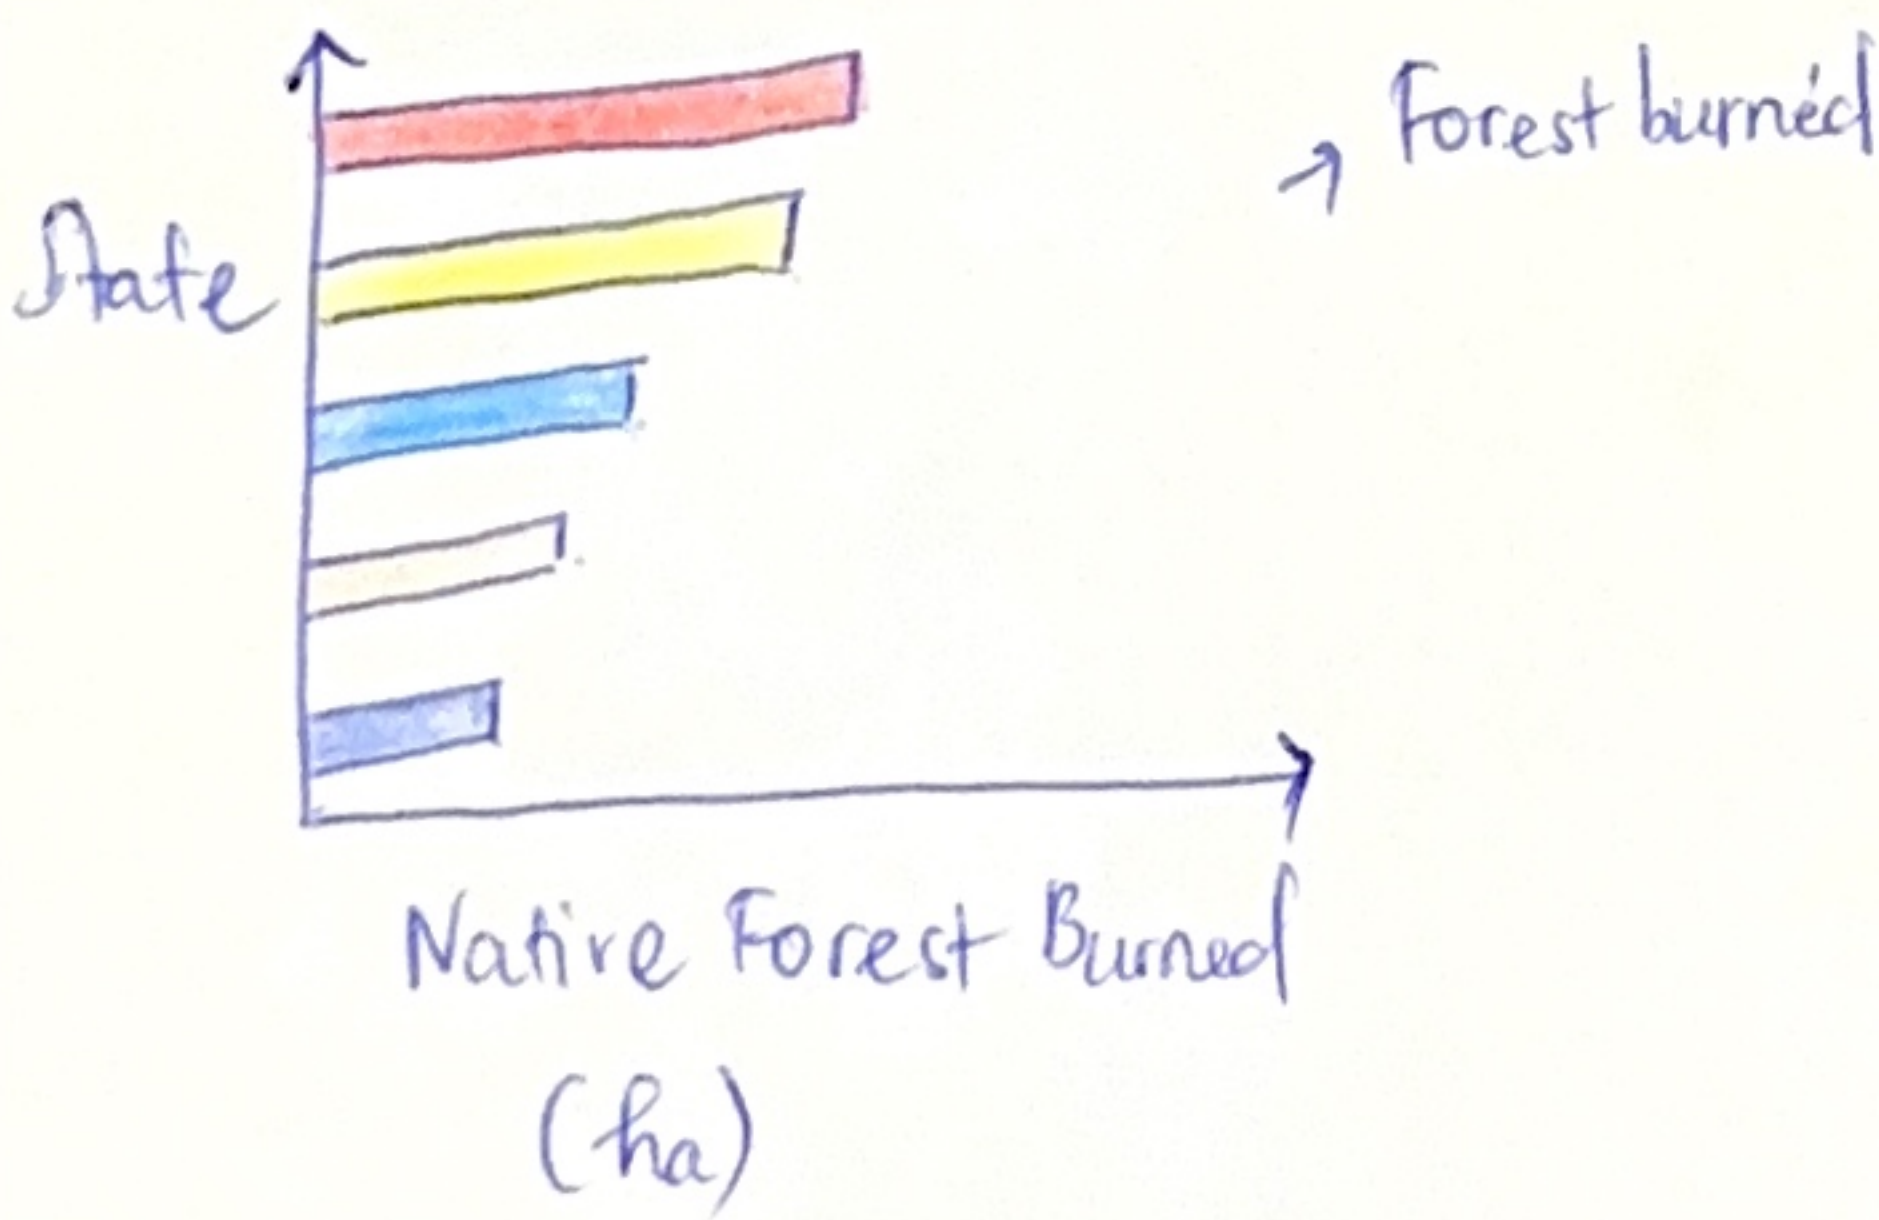

own section

LAYOUT

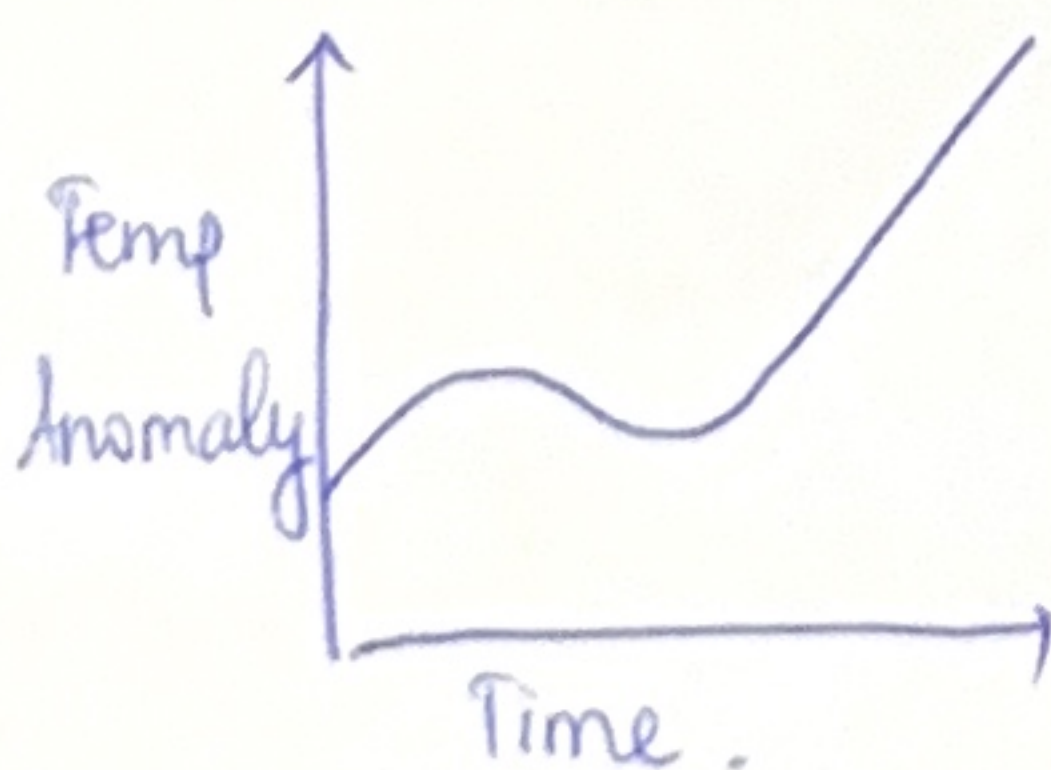

Severity

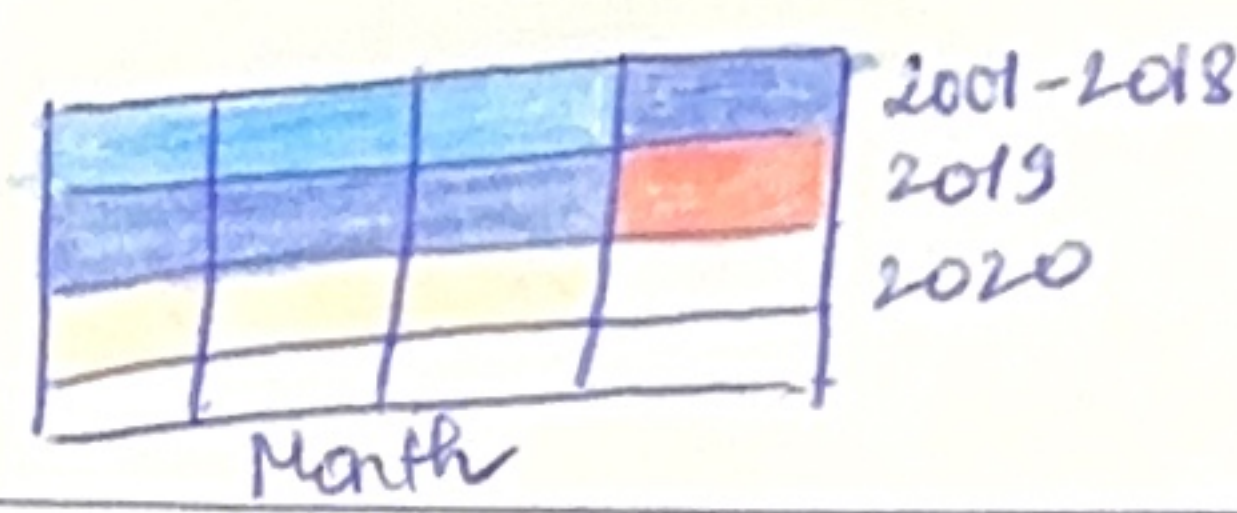

Legend → Fire area.

Causes

CO₂ emission

OPERATION

Tooltips for each state

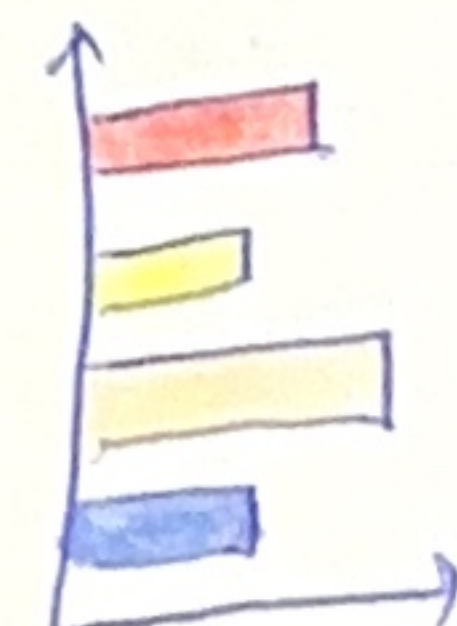

Select states
Select metric

Tooltips

- Value
- State
- Time

Filter
Sort?

FOCUS

Everything should be focused!

Important: → Typeface: Serif
→ Magazine style.

Maybe: Sans - Serif for charts?

Align items neatly.

DISCUSSION

- Is the layout too simple?
- Color choices.
- Could it be similar to magazine?

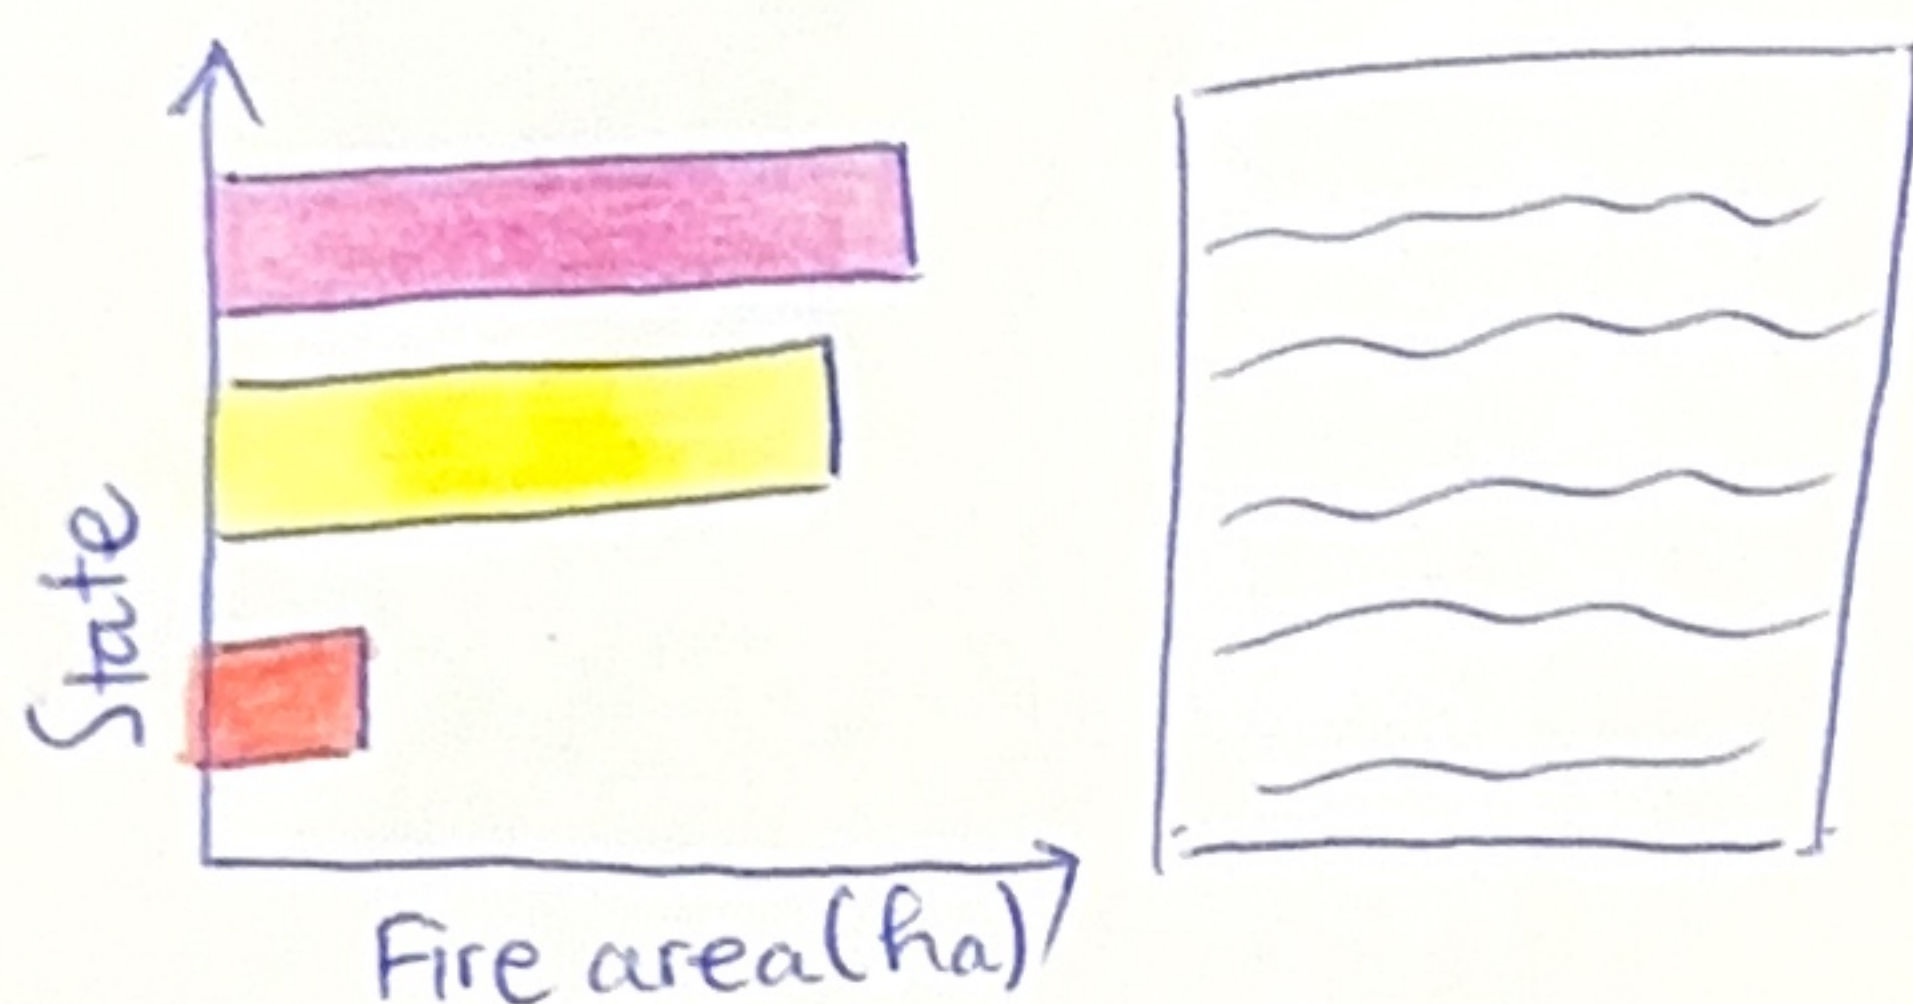

LAYOUT

→ Side by side.

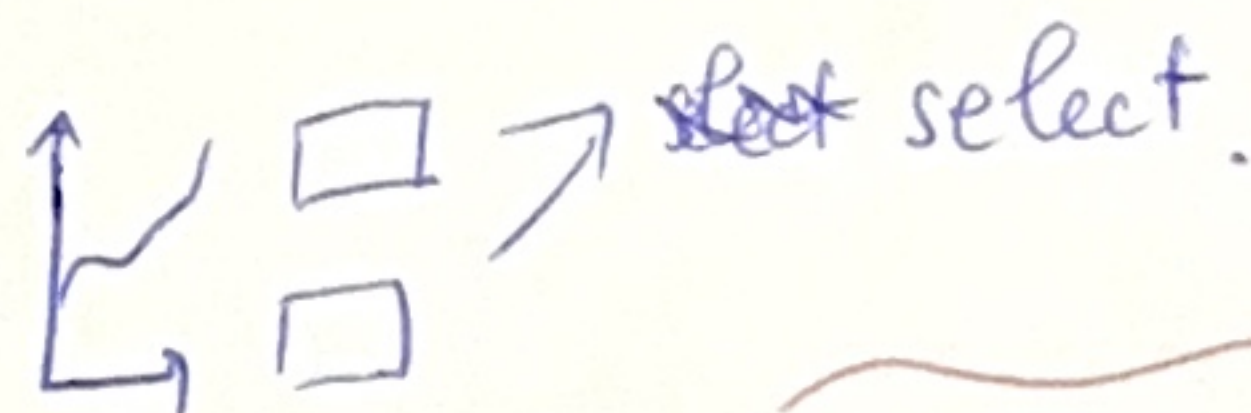

OPERATION

Clickable → Highlight state.

Make sure tooltips are shown

Add sort/filter buttons.

FOCUS

Make sure that the page width is big enough for the side-by-side layout

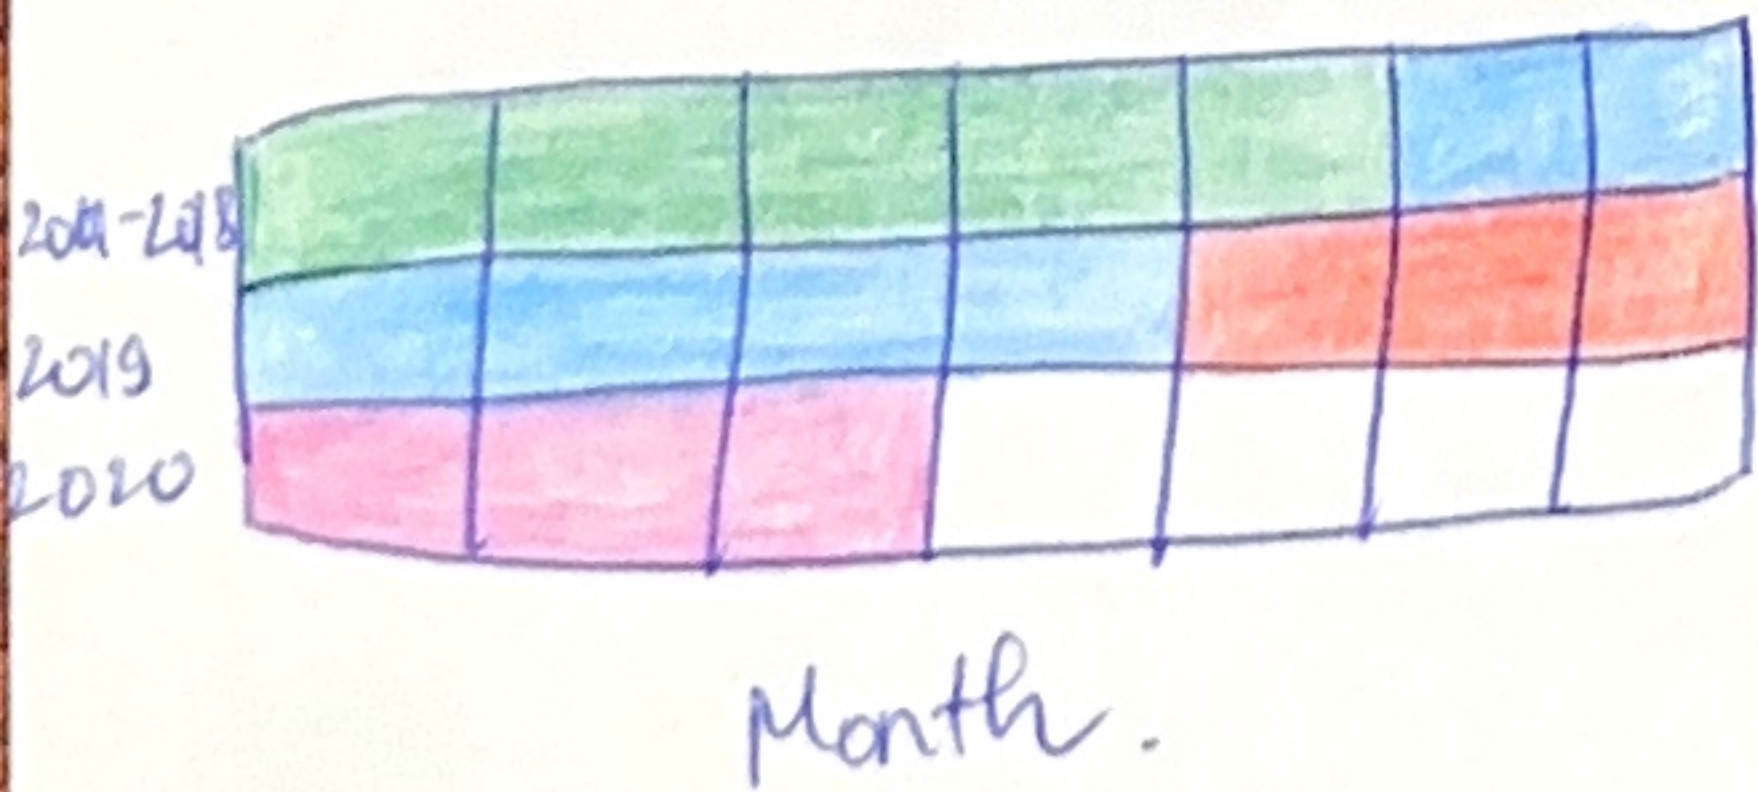

The length of the text should be carefully considered → look complete / not too short

Interactivity from sorting/filtering

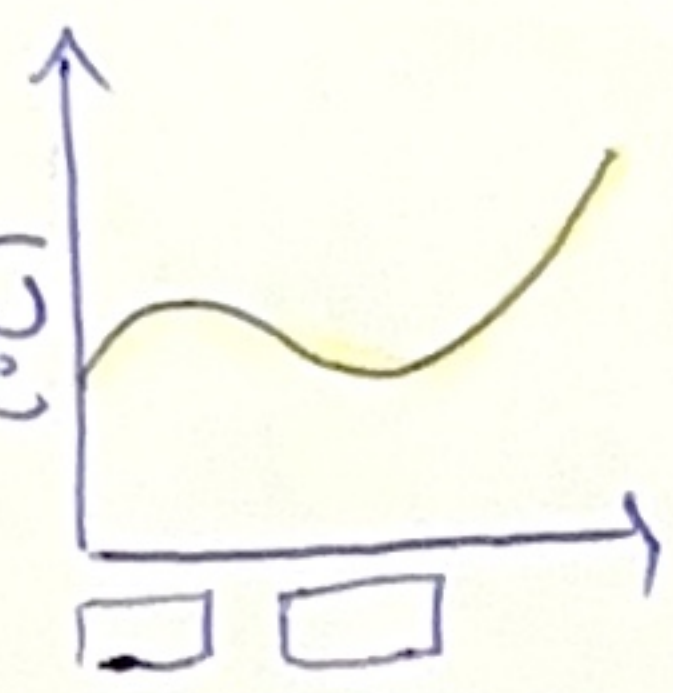

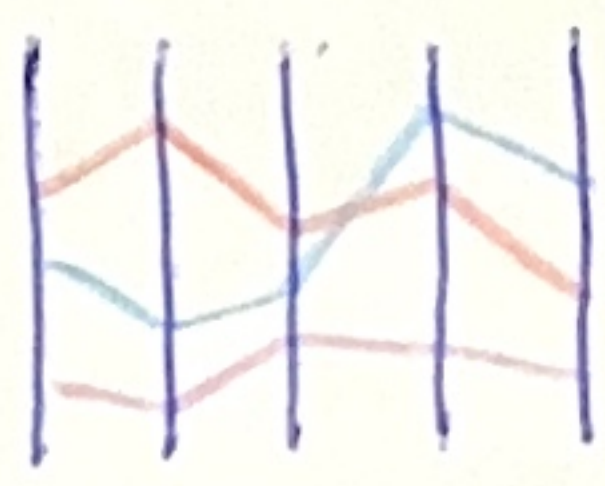

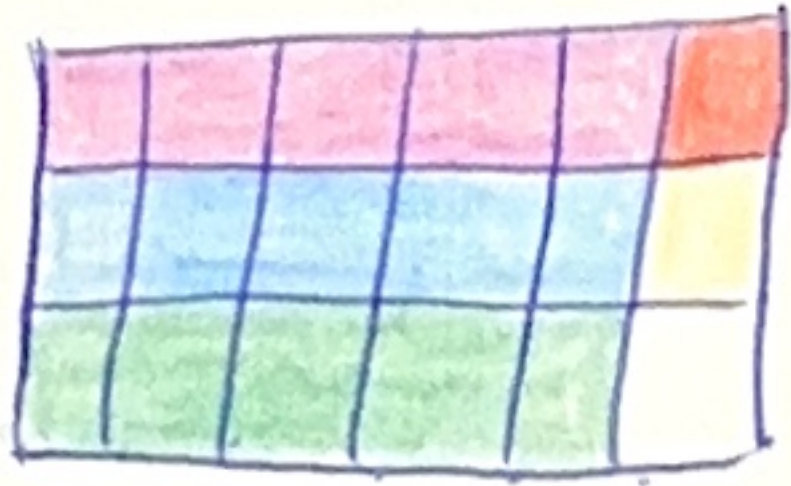

DISCUSSION

- This layout might be too simple.
- Might not be enough space for two charts on the same line.

LAYOUT

Narrative layout (by chapter)
using JS.

TITLE ... Subtitle ...		①
	Description ~~~~~ ~~~~~ ~~~~~	②
		③
~~~~~ ~~~~~ ~~~~~ ~~~~~	 ~~~~~ ~~~~~	④
	~~~~~ ~~~~~ ~~~~~ ~~~~~	⑤
~~~~~ ~~~~~ ~~~~~		
Ending ~~~~~ ~~~~~ ~~~~~		
Metadata ... Author ... Published on ...		

Author: Hieu Trinh
Date: 10th Oct 2025
Sheet: 4/5

OPERATION

Scroll / Update view for
each chapter.

- ↳ Layout is very flexible.
- ↳ Easy alignment.
- ↳ Dynamic based on the story.

Filter / Sort

- Select box
- Sorting

DISCUSSION

This layout seems very beautiful.

- Flexible.

→ Might need more time learning how to implement.

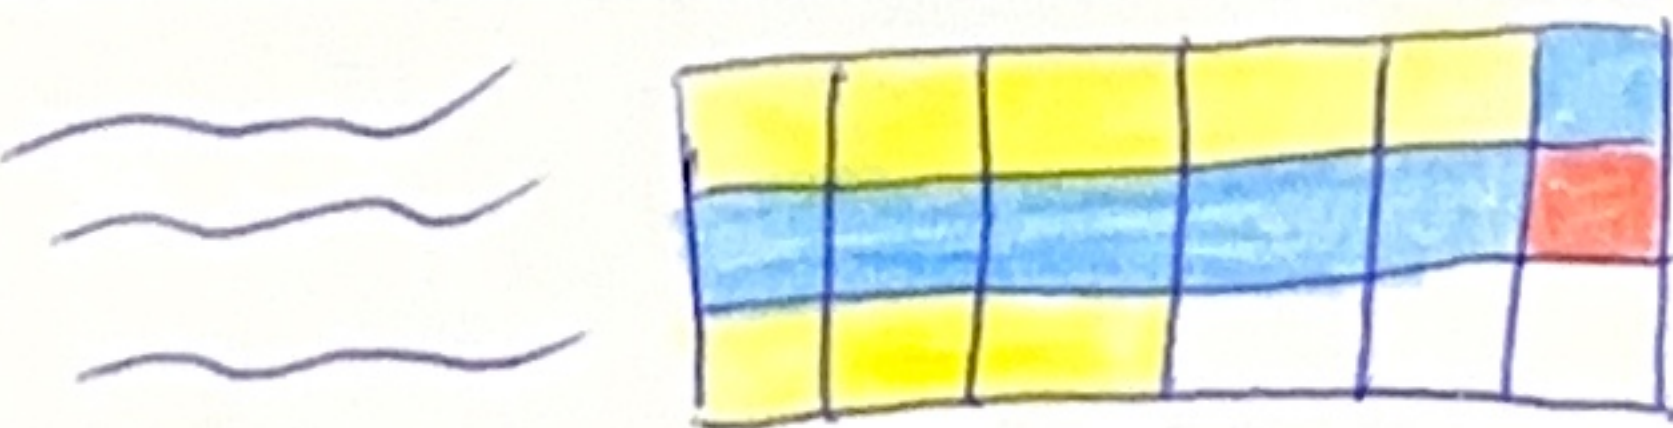

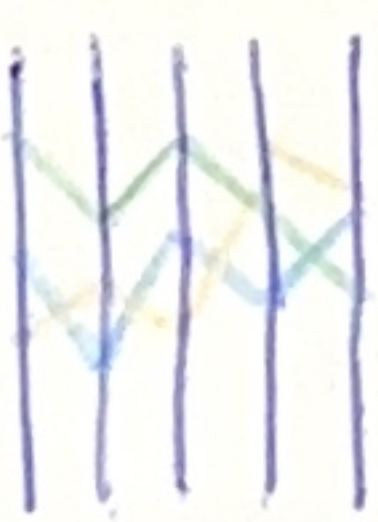

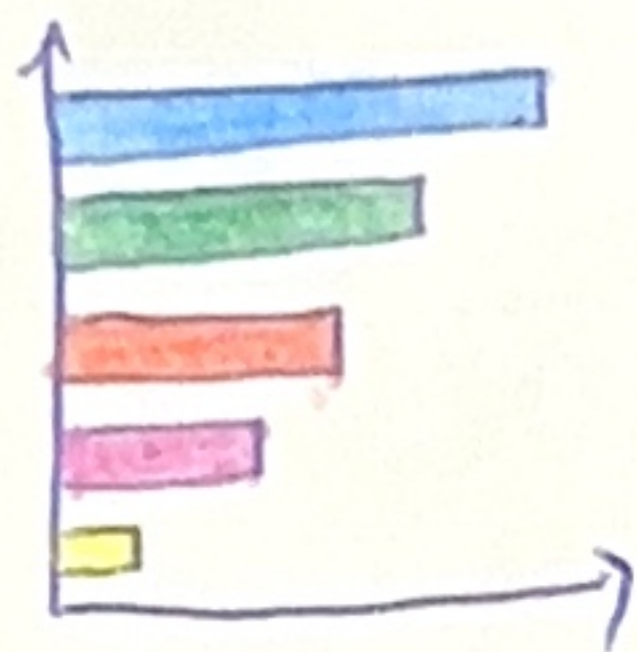

FOCUS

As each chapter has its own page, the focus has to be equally divided.

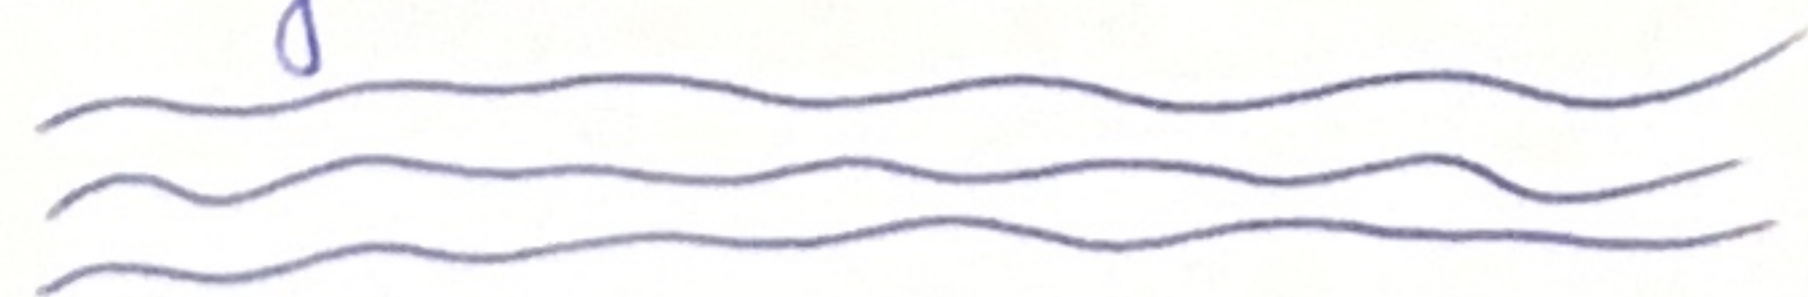

Motion / Animation when scrolling is important.

LAYOUT

TITLE: Black Summer 2019-2020
Subtitle...

Author: Hieu Trinh
Date: 10th Oct 2025
Sheet: 5/5

OPERATION

o> Scroll / Update view for each chapter.

1. Impact
 2. Reasons
 3. Cycle
- } 3 chapters.

o> Enable filter / sort functionalities for some charts.

FOCUS

- o> Make sure tooltips are available.
- o> Scrolling.
- o> Neatly aligned components.

DETAILS

Datasets

Spatial data from
fed. deew.gov.au

Map: Natural Earth

Weather: BoM.

Fire: agriculture.gov.au

CO₂: nature.com.

Data preprocessing: Spatial data
↳ Make size smaller.

Working time: Est 5 days.

→ Might need more time for the scrolling.
